Hello Magdalena,

We just wanted to say congratulations on yet another impressive milestone with us – you have reached **Bronze** tester rating! Not only does that mean that you earned a shiny new badge on your profile, but you'll also earn 2.5% more on approved bug payouts. Pretty cool, right?

But that's not the end... Silver-rated testers can receive a 5% premium on all approved reports!

Want some extra inspiration? Check out some tips from one of our Gold-rated uTesters in this inspiring [article](#) featuring uTest community member Juna B., who reached **double gold-rated in under 3 months**.

You can reach Gold, too... Silver is already in your sights!

Keep up the great work, and happy testing!
